New Business

Mr. Cummings asked if there was any new business.

Mrs. Suzy Azzarello approached the podium and stated she has not seen any progress in regards to rerouting buses from utilizing 67th Street. She appreciated the Village is going to change the timing on the street light at East Avenue and 67th Street but this is a minor change. She stated there will be approximately 200 buses using 67th Street daily. If you add the cars of their employees going in and out daily, buses going in and out and vehicles from the other businesses along 67th Street, there will be approximately 1,200
vehicles on 67th Street from East Avenue east to First Student Bus Company. The amount of traffic, noise and pollution is overwhelming.

Mrs. Azzarello also stated she FOIA’d the Village for a copy of the contract with the Bus Company and Village. She informed the Board there was all kinds of stipulations/outs that benefit the Bus Company but nothing that protects the Village to get out of the contract.

Attorney O’Connell stated in his research, that 70% of the buses are equipped for emission control pertaining to the fleet that uses 67th Street. He also noted as soon and the Runnion and Advantage Chevrolet projects on East Avenue are completed the Village should be able to begin to create a new route for the buses other than 67th Street.

Mr. Struve stated the Village has been discussing this issue at length and is hoping something can be accomplished after the Runnion and Advantage Chevrolet project is completed.

Mary Hejna a resident of Parkview asked about the skunk problem.
