Hopefully, everyone has already, or is currently, receiving their 2014 Village tax rebates. It certainly comes in handy for the holiday season. It seems like yesterday that we provided the 2013 rebates. In fact, we have been providing our residents these tax rebates for over seven years.

While homeowners receive the actual village portion of the property taxes, mobile home residents and apartment tenants get set amounts even though they do not pay property taxes directly.

Some of you wonder, how can the Village of Hodgkins provide such benefits to our residents? After all, it is not common. We are not aware of any community in the State of Illinois that provides the level of rebate to its citizens as we do. The answer is: our Commercial and Industrial base.

This drives the property taxes and sales taxes. Everyone knows about the Quarry Shopping Center, Menards, Quarry Theatre, UPS, all the vibrant businesses up and down River Road and Santa Fe Drive. They did not arrive by accident. Through our Enterprise Zone and our TIF Districts we were able to attract these national and international businesses to come to our community. The rebates are simply a result of the Village success that should be shared with our residents.

This progress is continuing. As the D&S Truck Center and Ben’s Rental buildings are being completed, this is a reminder to us all that we are not finished with improving our village. In contrast, the new Ben’s Rental facility and future retail is a great upgrade to that section of East Avenue.

D&S Truck Center and Ben’s Rental & Sales, along with additional retail space along that corridor of East Avenue, will bring tax revenue to our community for years to come.

Currently, we are partnering with the Village of McCook to renew our Enterprise Zone. The State of Illinois has changed statutes that will continue to attract businesses well into this century. In addition, our new TIF 4 will enhance our efforts to develop the north end of East Avenue.

I want to take this moment to wish you all the very best of Holiday Seasons. As we celebrate Thanksgiving, I am reminded of everything that I am thankful for. May your Holiday Season be blessed.

Sincerely,
Noel B. Cummings
The Village continues to offer the “Freedom Alert” Pendant to our residents. This device will automatically dial the police/fire 911 number if you activate the remote button. The only requirement is that you have a standard phone line with touch tone service in your residence.

The pendant is kept on your person and has a wireless range of up to 600 feet. When activated you will speak directly into the pendant, and can communicate your emergency from most anywhere within your home or yard.

We purchased these devices and are offering them to our residents free of charge, for those who have a need. There are NO activation charges, NO contracts, and NO monthly fees. Priority is given to those handicapped and living alone, but other conditions also qualify.

For information on having a Freedom Alert device installed, contact the Hodgkins Village Hall. Once your application has been approved, you will be notified by the Hodgkins Police Department and an officer will stop by and install the device.

To date, we have about sixty Freedom Alert devices operational. If you would like one, please contact the Hodgkins Village Hall at: 579-6700
The Village of Hodgkins Board of Trustees have approved the Real Estate and Garbage Rebates for the eighth consecutive year.

If you are a homeowner, and received a homeowners exemption on your 2013 Property Tax, details will be on the Second Installment payment which was due this past August 1st, you are eligible for your property tax rebate of the Village portion. Please provide a copy of the Second Installment bill along with your proof of payment.

Mobile Home residents and those residents that rent or lease an apartment are eligible for a tax rebate as long as you have resided in Hodgkins as of January 1st, 2014 and still reside here. These rebates will be available starting November 19th, 2014 through December 19th, 2014.

If you have any questions or need assistance with this rebate, please call the Village Hall at 579-6700 or stop by.

The Hodgkins Village Board is continuing the annual contract with Groot Industries for residential refuse and recycling collection services. Over the next month, our residents will be receiving new recycling bins, similar to the existing trash carts. This will allow for your recycled items to be placed inside the cart and not be exposed to wind and weather.
HELP WANTED:

PART-TIME SNOW PLOW DRIVERS

The Village of Hodgkins is looking for Part-Time snow plow operators to use on an on-call basis. If you are experienced and have a valid drivers license and interested in being placed on a list. A job description and applications are available to the Hodgkins Village Hall. All applicants must pass a Drivers License and background check.

Don't Let Your Pet Feel Left Out!

Don’t let your pet feel neglected. They are an important member of your family. The Village of Hodgkins requires all pet owners to register and license “dogs and other animals” in their households. You can obtain your pet license at the village hall.

To register your pet, you will need to bring their current rabies vaccination records from your Veterinarian. It is a simple registration form to complete and best of all there is no cost!!

Once you register your pet, you will receive a metal tag to attach to your pet’s collar. This is an important detail. If your pet gets loose and found, we can look up the owner information from the metal tag.

Fly Your American Flag With Pride

AND DISPOSE OF IT PROPERLY

We have a large number of residents who fly the American Flag by their homes. Some small and some large flags. This is a beautiful sight to see when driving down a residential street. But what do you do with the flag once it becomes worn and needs to be replaced?

The Village will accept any old flags and will dispose of them properly. We will collect these flags at the Village Hall and turn them over to the Coulter American Legion Post #1941 in LaGrange. Once a year, they conduct a flag service and ceremony. If you would like to dispose of an old Flag, either drop it off at the Village Hall or call us and we will have it picked up.
The Public Works crew has kept very busy this summer and fall. Unfortunately, our crew has been working short handed over the summer. We hired 3 young high school kids to help on a part-time basis in our Summer Help Program. We are currently looking to fill a full-time position due to a vacancy. A detailed job description and applications are available at the Village Hall. It is our hope that we can fill this position before the Holidays. In addition, we will be making a list of part-time snow plow operators, as we did last year.

We will probably keep vacuuming up leaves for the remainder of the month of November, depending on the weather. So if you rake your leaves to the street, please get them as close to the curb as possible. This will make it much faster to run the vacuum truck along the street edges to collect the leaves.

As the winter season quickly approaches, we want to remind everyone to be careful when driving or walking on our streets and sidewalks. We hope that this winter is not as bad as last years.

Our annual allotment of road salt is 1200 tons, which we used last winter. In the event we need more, we can buy extra salt at a higher cost. BUT, we are hoping that we do not even come close to using our allotment. We are stocked up with salt and our vehicles are prepared to plow our streets and sidewalks.

The Public Works crew work very hard to keep our streets and sidewalks clean and safe. We ask that you be patient and understand ice and snow can be very hazardous and it takes time and hard work to clean our roads.

If you have large bulky items to throw out during the winter months, please give the village hall a call so we can handle the pick up. Keep in mind that when it snows, our priority is cleaning the roads and sidewalks first.

On behalf of the Public Works crew, we want to wish you all a very happy and safe holiday season.

Jack Scott
Superintendent DPW

Help Wanted Full-Time
Hodgkins Public Works

The Village of Hodgkins Department of Public Works is currently looking to fill a position within the Department. We are looking for a laborer with basic mechanical knowledge, a CDL or the ability to obtain a CDL. Also must be able to pass and maintain a water certification test. For a complete job description and application, stop by the village hall. Position will be filled by December 8th, 2014.
Aging Well Program

We are now coming to the end of a great year for Aging Well. It was a fun filled year. Each month, we tried to have a speaker or event for our meetings.

The Aging Well program is open to anyone over 55 years of age. Our meetings are held on the third Wednesday of each month at 10:00 AM in the Hodgkins Village Hall. We do not schedule a meeting in the month of January, due to the weather. Each meeting, we encourage our members to bring a neighbor or a friend.

Since the last newsletter, the Aging Well program hosted our Annual Mothers’ Day Luncheon, an Antique Appraisal and information, Ice Cream Social and Bingo and toured the United Parcel Service facility and the Deep Tunnel Project, both located in Hodgkins. We also had Jaime Lee Silver, a concierge from the British Home in Brookfield as a guest speaker. She discussed health and living conditions in various facilities and home care issues. We now look forward to our Annual Christmas Party.

We still have the Freedom Alert devices (Info on Page 2) for our residents. These devices are very nice to have and the village will provide them free of charge if you qualify. For more Information, call the village hall 579-6700.

I would like to remind all of our seniors that have not yet stopped at the Senior Luncheon program held at Salerno’s Restaurant on 63rd street in Hodgkins. This program is for seniors aged 60 and above. The program is offered Monday-Friday from 11:30 AM to 12:30 PM and only costs $2.00. You must call and reserve your spot before noon the previous day. Call 708-354-1323 to make your reservation.

The Aging Well program is always looking for new faces to participate through the year. Call the Village Hall and ask for me if you have any questions about our program.

On behalf of the Hodgkins-McCook Aging Well Program, I want to wish you all a great Thanksgiving and very Merry Christmas!

For the Hodgkins Park District, 2014 marks a milestone. Many years of planning, development, and finally, construction, have now culminated in the grand opening of the newly renovated Hodgkins Park District Building.

At an indoor ceremony in the new lobby, park district personnel, village leaders, and residents gathered for the cutting of the ribbon (done by park district board president Joe Moxley) and the official grand opening of the attractive new facility. Opening the ceremony was Eileen Tucker, Director of Recreation. Speaking of her excitement to start up the programming for the new facility, she drew from the sentiment of a well-known American visionary.

“Walt Disney once said, ‘You can design and create, and build the most wonderful place in the world. But it takes people to make the dream a reality.’ You are those people. Without you this great building would have no purpose. Our goal is to make this facility come alive with programs for people of all ages,” she said.

Tucker then turned the microphone over to Park District Executive Director Kelly Young, who expressed her appreciation to residents of Hodgkins for voting to support the expansion and renovation through a local referendum.

“The fate of our project was in the hands of our community, your hands,” she said. “We couldn’t have done any of it without the support of those who believed in us and voted ‘Yes.’ We truly can’t thank you enough.”

Young also praised the efforts of the many people who helped to bring the vision to fruition. “A little over a year ago, we were standing in this same spot with nothing but a vision and a set of blueprints,” she said, referring to the beauty of the sparkling new lobby.

At a cost of $3.3 million, $2.475 million of which was reimbursed by the state of Illinois through the PARC Grant (Park And Recreation facility Construction program), the project saw the addition of an indoor playground, a renovation of the older portions of the building, and an expansion of the fitness center.

In addition to these added features are a new multi-purpose room (including a fitness studio and a regulation volleyball court), new bathroom facilities and locker rooms, a senior center, an expanded pre-school area with controlled access, a nutritional classroom (learning kitchen), and an expanded and more functional lobby area.

The new facility was occupied and has been in use since June 16th.
Next year will mark our 25th year of supporting St. Jude Children’s Research Hospital. Most of you are familiar with St. Jude and the great work they do in finding cures and saving children. To help celebrate this anniversary, we are sponsoring several St Jude Fund Raising events from now and ending in May of 2015 at our Annual Bike-A-Thon.

On the evening of December 6th, 2014 we will be organizing a group of carolers to participate in an evening of Christmas Cheer! If you see our group, please help us out and make a donation to St Jude. We will have donation buckets available and will accept whatever you can donate.

**Because of You, There Is St. Jude:**

Because of you, families never receive a bill from St. Jude for treatment, travel, housing or food - because all a family should worry about is helping their child live, and St. Jude freely shares the discoveries made, so every child saved at St. Jude means thousands more children can be saved around the world and in your community.

*St. Jude won’t stop until no child dies from cancer. You can help. Continue the St. Jude mission of funding cures that are saving children every day!*

**Hodgkins Food Pantry**

The Village of Hodgkins has a small food pantry, administrated out of the Village Hall. No personal information is required of those seeking assistance. The only requirement is that you be a resident of Hodgkins. If you are in need, please contact the village hall at 579-6700 to arrange for a bag of groceries.
On June 3rd, 2014, Gene Drenning died at Baptist Memorial Hospital in Union City, Tennessee. Gene was born in Blough, Pennsylvania in 1943 and was one of 20 children.

Gene served in the United States Army during Vietnam. He was stationed in Germany with a Tank Division. He met and married Shirley Harrison on December 30th, 1968. Shirley and Gene lived in Lyons, where they started their family with a new baby girl, Priscilla in 1970.

Gene retired from Chase Fastener Company in Melrose Park, Illinois. He was elected Hodgkins Village Trustee in 1983 and served until 1995. During that time Gene chaired the Finance Committee and was involved in many projects within the Village.

Gene remarried and moved to Union City, Tennessee. He always remained active within our community and will be remembered as a public servant who cared about the quality of life in Hodgkins.

Bo was raised here in Hodgkins and graduated from Lyons Township High School in 1971. He enlisted in the United States Air Force in 1973 and served for 10 years as an airplane engine mechanic.

Upon returning to Illinois, Bo worked for Certified Grocers until 1988 when he started on the Hodgkins Public Works Department. He worked there until 1992 when he moved to Michigan and then to Middleburg, Florida.

Bo’s father William served as a Village trustee and his brother Billy worked for the Hodgkins Police Department.

Bo was employed by Greener Image of Jacksonville for the past 10 years and was a member of the American Legion Post 250 in Middleburg. Bo enjoyed boating and was an avid football and NASCAR fan.

Bo Johnson is survived by his wife, Sandra Johnson, two sons, Brandon (Rori) Johnson and Brian (Leah) Johnson, step son, Michael Grams, sister, Debbie (Dale) Herman and six grandchildren, Violet, Emma, Gabby, Payton, Ashton and Ember, nieces, Becky Johnson, Alexandra Johnson, nephews, Jonathan Johnson and Jordan Johnson and great nieces and nephews.
On November 13th, 2014 the Orland Park Police Department hosted an Annual Awards Ceremony. In January of this year, the Orland Park police responded to a call and discovered the deceased body of one of their residents, stabbed multiple times. The cause of death was ruled a homicide.

The Orland Park Police Department are members of the South Suburban Major Case Task Force. This task force was formed by several municipalities in our suburban area to assist with homicide cases. Each member agency provides their detectives to work in the event of a homicide within any of the member jurisdictions. The advantage to those municipalities who belong to this task force comes when a homicide occurs in their community. The ability to have a team of experienced and certified homicide detectives arrive is a tremendous asset. The Village of Hodgkins joined the Task Force in 2006. “It is an invaluable advantage to have a specialized group to assist a small department in these investigations”, said Chief Phil Kringlie (Ret).

In this case, the task force responded at the first call and within 96 hours, had the offender in custody and charged with the murder.

Detective Bennett along with task force detectives, were instrumental in the apprehension of this offender. The detectives developed leads and was able to track the suspect to Indiana. The suspect was questioned and confessed to the murder.

On November 13th, 2014, Orland Park Chief of Police Timothy McCarthy presented Det. Mike Bennett with the “Exceptional Service” Award. Those present included Mike’s family, his wife Annette and children Alyssa and Joe. Representing the Hodgkins Police Department were Administrative Assistant Elaine Thompson and Retired Chief of Police Phil Kringlie.
It is a normal day at work, just as you sit down to start working for the day there is a brief squealing of tires just before a two thousand pound vehicle slams into your office at 70 miles-per-hour. This will normally not be an issue for most professionals that go to work, but is a stark reality for police officers, fire fighters, tow operators, maintenance and construction workers.

“The men and women dedicated to keeping our roadways safe have one simple request, Move Over and Slow Down,” states Captain Robert Atherton, Illinois State Police District 7 Commander.

The Illinois State Police have experienced too many tragedies over the past three years. Troopers Kyle Deatherage and James Sauter were killed by drivers failing to heed the Move - Over Law in November 2012 and March 2013 respectively.

There have also been two Illinois State Police Troopers this year who have been critically injured by irresponsible drivers. In one of those incidents Vincent Petrella, a toll-way maintenance worker, was also killed.

In EVERY case, the emergency vehicle had lights activated on the side of the road. By law, if a vehicle authorized to display blinking, flashing, or oscillating lights has their lights activated, any approaching vehicle on a roadway with two or more lanes dedicated to the same direction of travel MUST move to the lane NOT adjacent to the emergency or maintenance vehicle. If traffic does not allow for a lane change, the vehicle will reduce speed.

A citation for this violation will result in:

- Mandatory Court Appearance
- $100 – $10,000 fine (depending on severity)
- Possible Driver’s License suspension (90 days – 2 years involving a crash)

Scott’s Law, also known as the “Move Over Law,” was a result of a tragic incident. In December 2000, Lieutenant Scott Gillen of the Chicago Fire Department was struck and killed while assisting at a crash scene on a Chicago expressway. A passing car, driving too fast and too close to the crash scene, lost control just as it was passing Gillen’s parked fire truck, striking the Lieutenant and fatally injuring him.

Perhaps one of the most common situations in which people find themselves ticketed under Scott’s Law is when they pass a police car parked on the side of the road with its lights flashing. Even if the officer does not appear to be doing anything outside his vehicle, you must obey Scott’s Law. Remember: If the lights are flashing, give him space.

**Move-Over Laws**
**Now Enacted in All 50 States!**

**Know The Law:**
When you see flashing lights on the side of the road, slow down, and if it’s safe, Move Over – away from police, fire crews, paramedics and tow truck drivers.
As some of our residents are aware, we have been working on establishing a “Quiet Zone” with the Federal Railroad Administration. The Village Board started this process well over a year ago. Under federal guidelines, locomotive engineers must begin to sound train horns at least 15 seconds, and no more than 20 seconds, in advance of all public grade crossings. For those of you who live close to our railroad crossings, you understand how terrible these train horns can be.

The Federal Railroad Administration allows for “Quiet Zones” only in certain and specific conditions. Unfortunately, the federal government does not move fast and we are still waiting for approval from the Federal Railroad Administration. We do expect the approval to be granted in the near future.

Once the approval has been granted, we can start on the construction phase. The village has set aside funds to cover the costs of the modifications that must be made before the quiet zone can be implemented. The estimate of this cost is $400,000.

We are hoping for the final approval to be granted during the next few months. Then, the crossing gates and concrete medians can be installed.

Keep The Tabs Coming!

On November 8th, 2014 we delivered about 100 pounds of aluminum tabs to the Ronald McDonald House in Maywood Illinois. Another cartful of tabs collected by the Village of Hodgkins for a great cause. Thanks to all who collect and provide the village with these aluminum tabs.

Let’s keep saving those TABS for the Ronald McDonald House Charities!

Welcome Home From U.S. Navy
Robert Millsap

In 2009, Hodgkins resident Robert Millsap graduated from Lyons Township High School. He worked at a few small jobs but knew that he wanted something more. He became interested in learning a skill in the United States Navy.

On May 5th, 2010 Robert Millsap entered the Navy at Great Lakes Training Center for boot camp. Upon completing boot camp, he attended Information Systems Technician School in Pensacola Florida. The “A” school teaches the sailors extensive technical preparations to work on database design and computer networking, including communication systems. The Navy “IT” school takes 24 weeks to complete. Upon graduation from the Technical school, Robert was assigned to ship duty in Everett, Washington. He was assigned to the USS Momsen.

The USS Momsen is the twenty-sixth destroyer of the Arleigh Burke class to be built by Bath Iron Works. She is named after Vice Admiral Charles B. “Swede” Momsen of Flushing, Queens, New York (1896–1967). Vice Admiral Momsen made many contributions to the navy such as the invention of the Momsen Lung when he was assigned to the Bureau of Construction and Repair. Momsen was also involved in the first successful rescue of a crew of a sunken submarine, USS Squalus (SS-192), and subsequently supervised the salvage of the boat.

The Momsen is 505 feet in length, weighs over 8300 tons and can travel at more than 30 knots. She carries a minimum crew of 280 sailors, 2 SH-60 Seahawk Helicopters and is armed with standard missiles, Tomahawk vertical launch missiles, MK-46 Torpedoes, ESSM Missiles, 5” MK 45 Gun and multiple 50 caliber machine guns.

Seaman Millsap left on his first of three deployments with the Momsen in Carrier Strike Group Nine. On 2 February 2011, the destroyer Momsen, with the guided-missile cruiser Bunker Hill, responded to a distress call from the Panamanian-flag merchant vessel Duqm in the Gulf of Oman. Both ships disrupted a pirate attack on the Duqm, tracked the two pirate skiffs back to their mother ship, and destroyed the two skiffs to prevent their use in future pirate attacks.

Over the next four years, Millsap would travel all around the Western Pacific with three different deployments. He would visit countless ports including, Japan, Malivas Islands, Bahrain, Thailand, Guam, Dubai, Oman, Malaysia, Indonesia, Saipan, Australia and Hawaii on several occasions.

Millsap earned the Global War on Terrorism Service Medal, Global War on Terrorism Expeditionary Medal, National Defense Service Medal, 2 Navy Marine Corps Achievement Medals, 2 Battle Efficiency Medals and 3 Sea Service Medals.

Petty Officer 2nd Class Robert Millsap, Welcome Home and,

Thanks for your service!
The Village of Hodgkins conducted our Annual Memorial Day Service on Monday May 26th, 2014.

The day begins very early. We place over 120 Memorial Crosses on the lawn area that surrounds our memorial. We have a group of volunteers that meet at the Village Hall each year at 6:00 am. It takes about 2 hours to place all the crosses. The crosses have names of family friends who have served in the military and have passed on. Some of the crosses include those who were killed in action. The volunteers never complain and return at the end of the day to pick up the crosses. A special thank you those volunteers who contribute their time to help put out and pick up the crosses in the morning and at the end of the day.

At around 10:45 a.m. the American Legion Coulter Post #1941 arrives with the Honor Guard. The Post Commander and Chaplain deliver an American Legion service that includes TAPS and a Twenty One Gun Salute.

This year our Special Guest speaker was John O’Connell. John is the Village of Hodgkins Attorney, but more importantly for this day, a Vietnam Veteran. He spoke about the importance of the “Welcome Home” factor for our military. John reflected on the Vietnam Vets who did not receive a welcome home and in a lot of cases, were scorned for their service. John talked about the importance of the “1988 Chicago Vietnam Veteran Welcome Home Parade”, and how those simple words “Welcome Home” can mean so much to a returning veteran.

“Family Bingo Night”

Help Support St. Jude Children’s Research Hospital

2015 will mark the 25 Year Anniversary of the Hodgkins Police Youth Division and F.O.P supporting this great cause. For the past 24 years we have hosted an annual Bike-A-Thon in town. For our 25th Year Anniversary we are planning some fun events for the whole family. Starting in September 2014 we began “Family Bingo Night” at the Hodgkins Park District once a month:

Mar. 20th, 2015 - Apr. 17th, 2015

If you have any questions: Call Elaine
